

MSA

Minnesota Society
of Anesthesiologists

2nd Annual Conference Syllabus

November 13–14 , 2021

Radisson Blu Mall of America

Bloomington, Minnesota

**Up to 10.0 *AMA PRA Category 1 Credit(s)*[™]
and 10.0 *MOCA 2.0*[®] Credit(s)**

Welcome

Dear Colleagues,

It is with great joy that I have the privilege of welcoming you to the Minnesota Society of Anesthesiologists (MSA) 2nd Annual Conference, held in person from November 13 to 14 at the Radisson Blu, Mall of America, in Bloomington, MN.

This year's scientific meeting will include several impactful invited speakers, a small group session for problem-based learning discussions (PBLDs), and a hands-on ultrasound, regional anesthesia and PoCUS workshop. To enhance learner experience and ensure COVID precautions, we've limited the total number of participants for the PBLDs and hands-on workshops.

As you will be able to see in this year's conference agenda, presentations will include high-yield topics such as pediatric fluid management, quantitative neuromuscular blockade monitoring, the risks of burnout amongst Anesthesiologists, and much more. In addition, there will be ample opportunities for us to re-connect with our colleagues, visit with exhibitors, and hear the latest legislative updates pertaining to our specialty.

Following the lead of the ASA Annual Conference this fall, the MSA has established COVID-19 precaution plans for our MSA Annual Conference. All participants (attendees, speakers, facilitators, exhibitors and live models) at our MSA 2nd Annual Conference have completed an attestation form verifying their COVID-19 vaccination status or that they will provide negative COVID-19 PCR testing within 72 hours of the Conference. Additionally, mandatory masking will be required unless presenting at the podium or while eating during scheduled break and meal times.

On behalf of the MSA Education Committee and the entire MSA Board of Directors, we are excited to see you all in person again and happy to have compiled such an accomplished group of speakers and educators to make this a high-yield conference for you.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Kyle Bohman'.

J. Kyle Bohman, MD
Chair, MSA Education Committee

Planning Committee

J. Kyle Bohman, MD
Chair, MSA Education Committee
Assistant Professor of Anesthesiology
Mayo Clinic
Rochester, Minnesota

Mojca Remskar, MD, PhD, MACM
Executive Vice Chair, Department of Anesthesiology
Medical Director M Simulation
Medical Director VA Simulation Center
University of Minnesota
Minneapolis, Minnesota

Parking

Complimentary self-parking is available in the East and West parking ramps. If you are a registered hotel guest and parking overnight in either ramp, you must bring the make and model of your vehicle, as well as your license plate number, to the hotel front desk upon check-in. The hotel team will inform the Mall of America team of your information. Mall of America's team will tow cars which are parked overnight in either ramp that have not been registered with the hotel as staying at the hotel on that same night.

WiFi

Complimentary WiFi access is offered in the meeting space at the MSA 2021 Annual Conference. To access the WiFi, simply connect to the network "RadissonBlu", open your web browser and click on non-guest. There is no password required, but you will have to click on the acceptance button once prompted.

Agenda

Saturday, November 13, 2021

- 7:00 - 7:55am **Registration & Continental Breakfast with Exhibitors**
- 7:55 - 8:00am **Welcome Remarks**
J. Kyle Bohman, MD, Mayo Clinic, Program Chair
Tae Kim, MD, University of Minnesota, Pediatric Program Chair
- 8:00 - 8:25am **Anesthesia and the Developing Brain**
Yu Shi, MD, MPH, Mayo Clinic
- 8:25 - 8:50am **Physician Burnout and Suicide**
John Mrachek, MD, APA & North Memorial Health
- 8:50 - 9:05am **Question & Answer Panel**
- 9:05 - 9:35am **Break with Exhibitors**
- 9:35 - 10:15am **Pediatric Fluid Management**
Jakob Guenther, MD, University of Minnesota
- 10:15 - 10:45am **Neuro Gadgets in Non-Neurologic Surgery**
Tasha Welch, MD, Mayo Clinic
- 10:45 - 11:00am **Question & Answer Panel**
- 11:00-11:15am **Annual Business Meeting**
- 11:15-11:30am **Break with Exhibitors**
- 11:30am - 12:30pm **Luncheon & ASA Update**
Randall Clark, MD, FASA, ASA President
- 12:30 - 12:50pm **Break with Exhibitors**
- 12:50 - 1:20pm **Legislative Update**
Nate Mussell, JD, Lockridge Grindal Nauen
- 1:20 - 1:50pm **Preexisting Posttraumatic Stress Disorder and Anesthesia**
Brian Tolly, MD, Minneapolis VA Healthcare System
- 1:50 - 2:35pm **Everything You Believe about Neuromuscular Blockade and Monitoring is Wrong**
Mike Todd, MD, University of Minnesota
- 2:35 - 2:50pm **Question & Answer Panel**
- 2:50 - 4:50pm **Problem Based Learning Discussions**
- **Pediatric Unanticipated Difficult Airway**
Martina Richtsfeld, MD, University of Minnesota
Devon Aganga, MD, Mayo Clinic
 - **Pediatric NORA/MRI**
Kumar Belani, MD, University of Minnesota
Vinh Nguyen, DO, University of Minnesota
 - **Anesthesia for Neonatal Surgical Emergencies**
Anna Swenson, MD, University of Minnesota
Dawit Haile, MD, Mayo Clinic
 - **Non-Cardiac Surgery Anesthesia for Adult Congenital Heart Disease Patients**
Lisa Corbett, MD, University of Minnesota
Susanne Rupert, MD, University of Minnesota
- 4:50 - 5:00pm **Closing Remarks and Door Prize**

Agenda continues on next page

Agenda

continued

Sunday, November 14, 2021

7:00 - 8:00am **Continental Breakfast**

8:00 - 8:30am **Ultrasound for Difficult Access-Getting the Needle Tip in the Target Every Time**
Gregory Schears, MD, Mayo Clinic

8:30 - 11:00am **Regional Anesthesia and Ultrasound Workshop**

- **Paravertebral and ESB**
Dawit Haile, MD, Mayo Clinic
- **Infraclavicular Block**
Katie Handlogten, MD, Mayo Clinic
- **Knee Surgery Blocks**
Kristopher Schroeder, MD, University of Wisconsin
Roberto Blanco, MD, University of Minnesota
- **Transversus Abdominis Plane Block**
Balazs Horvath, MD, FASA, University of Minnesota
- **Ultrasound Peripheral IV Access**
Gregory Schears, MD, Mayo Clinic
Mike Nemergut, MD, PhD, Mayo Clinic
- **Gastric Ultrasound**
Sudarshan Setty, MD, University of Minnesota

11:00 - 11:10am **Closing Remarks**

Accreditation

Satisfactory Completion

Learners must complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available. If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and the Minnesota Society of Anesthesiologists.

Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physician (ACCME) Credit Designation

Amedco LLC designates this live activity for a maximum of 10.00 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Board of Anesthesiology (ABA) MOCA 2.0[®] Credit

This activity offers up to 10.00 CME credits, of which 3.00 credits contribute the patient safety CME component of the American Board of Anesthesiology's redesigned Maintenance of Certification in Anesthesiology[™] (MOCA[®]) program, known as MOCA 2.0[®]. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0[®] requirements. Maximum of 10.00 hours available. **You must request your certificate within 30 days of the activity to meet the deadline for submission to PARS.**

Sessions for patient safety are:

- Physician Burnout and Suicide (30 minutes)
- Pediatric Fluid Management (45 minutes)
- Neurologic Devices for Non-Neurological Surgery (30 minutes)
- Anesthesia and Post-Traumatic Stress Disorder (30 minutes)
- Quantitative Neuromuscular Monitoring (45 minutes)

Disclosure of Conflict of Interest

The following table of disclosure information is provided to learners and contains the relevant financial relationships that each individual in a position to control the content disclosed to Amedco. All of these relationships were treated as a conflict of interest, and have been resolved. (C7 SCS 6.1--6.2, 6.5) All individuals in a position to control the content of CE are listed in the agenda. If their name is not listed below, they disclosed that they had no financial relationships with a commercial interest.

First Name	Last Name	Commercial Interest: Relationship
Roberto	Blanco	Pacira Pharmaceuticals: Speakers Bureau
Gregory	Schears	Consultant for: Becton Dickinson, Accuvein, General Electric, Potrero, Smiths Medical and Medline

How to Get Your Certificate

1. Go to msa.cmecertificateonline.com
2. Click on the "Minnesota Society of Anesthesiologists 2021 Annual Conference" link.
3. Evaluate the meeting.
4. Print all pages of your certificate for your records.

Questions? Email Certificate@AmedcoEmail.com

Learning Objectives

As a result of participation in this CME activity, learners should be able to:

1. Change perception of physician burnout and suicide problem
2. Use different fluids in pediatric population
3. Skillfully use US for IV access
4. Manage neurodevices perioperatively
5. Inform families about anesthetic effects on pediatric population
6. Change how neuromuscular blockade is managed
7. Modify anesthetic medications use in PTSD

Anesthesia and the Developing Brain

1. Understand how anesthesia may affect the long-term development of children.
2. Understand perioperative changes in behavior and cognition in children.
3. Be able to inform children and families on the potential impact of anesthesia on the developing brain.

Physician Burnout and Suicide

1. Raise awareness of the scope of the problem
2. Understand the statistics specific to our specialty
3. Learn next best steps to address this issue

Perioperative Fluid Management in Pediatric Patients

1. Updates on pediatric NPO guidelines
2. Learn about preferred intravenous fluids during anesthesia
3. Learn about pediatric perioperative fluid management
4. Learn about pediatric fluid maintenance therapy
5. Learn about glucose hemostasis in pediatric patients
6. Learn about electrolyte imbalances in pediatric patients
7. Learn about acute kidney injury in pediatric patient

Neuro Gadgets in Non-Neurologic Surgery

1. Explain types and indications of neurologic devices
2. Describe the peri-procedural management of patients with deep brain stimulators undergoing non-neurologic surgery
3. Describe the peri-procedural management of patients with vagal nerve stimulators undergoing non-neurologic surgery

ASA Update

1. Learn about topics of ASA member interests
2. Gain an understanding of ASA advocacy focus areas for 2021
3. Learn about ASA's Ongoing Response to Covid

Preexisting Posttraumatic Stress Disorder and Anesthesia

1. Describe the diagnostic criteria and incidence of post-traumatic stress disorder (PTSD) relative to veterans undergoing surgery
2. Discuss the perioperative significance of preexisting PTSD based on current literature
3. Describe perioperative considerations and management strategies for patients with PTSD

Everything You Believe about Neuromuscular Blockade and Monitoring is Wrong

1. Gain a much better understanding of the safe use of neuromuscular blocking drugs

Ultrasound for Difficult Access-Getting the Needle Tip in the Target Every Time

1. Understand the importance of setting up for an ultrasound procedure
2. Be able to insert a needle tip into the center of a vessel without missing
3. Through better needle tip position awareness, will reduce insertional frustration, bent wires and potential puncture complications

Meeting Faculty

**Randall Clark, MD, FASA, ASA
President, American Society of
Anesthesiologists**

Dr. Randall M. Clark, MD, FASA, professor of anesthesiology at the University of Colorado School of Medicine and pediatric cardiac anesthesiologist at Children's Hospital Colorado in Aurora, Colorado, is

President of the American Society of Anesthesiologists (ASA).

Dr. Clark has served ASA in numerous roles, most recently as First Vice President and Chair of the ASA Section on Clinical Care. He is also a member of ASA's Committee on Innovation, Committee on Professional Education Oversight, Committee on Governance Effectiveness and Efficiencies, Committee on Quality Management and Department Administration, and Committee on Pediatric Anesthesia. Dr. Clark has been on the ASA Board of Directors since 1995.

Dr. Clark is a long-serving member of the Board of Directors of the Colorado Society of Anesthesiologists and is part of the ASA Delegation to the American Medical Association. He also serves on the Anesthesia Quality Institute's Board of Directors.

Dr. Clark received his Bachelor of Science degree in Aerospace Engineering Sciences, with honors, from the University of Colorado in Boulder before graduating from the University of Colorado School of Medicine in Denver. He completed his anesthesiology residency and fellowships in pediatric and cardiac anesthesiology at Baylor College of Medicine in Houston and is board-certified in anesthesiology and pediatric anesthesiology.

He resides in Denver with his wife Joy. L. Hawkins, MD, FASA, who is an obstetric anesthesiologist. They have two daughters, Catherine and Victoria.

**Jakob Guenther, MD, Assistant
Professor, University of Minnesota**

Dr. Jakob Guenther, MD, is currently an Assistant Professor at the University of Minnesota. He attended medical school at Otto von Guericke Universitaet Magdeburg Germany and his residency at the University Hospital Magdeburg, Germany and the Medical

College of Wisconsin Affiliated Hospitals. Following residency, he did a fellowship in pediatric anesthesiology at the Medical College of Wisconsin.

**John Mrachek, MD, Anesthesiologist,
APA and North Memorial Health**

Native to Minnesota, Dr. John Mrachek, MD, received his BA in English from St. John's University, and his medical degree and specialty training at the University of Minnesota. He completed the Physician College at St. Thomas and the ATP course

at Intermountain Healthcare. Over the last several years he has embarked on a personal journey to understand the factors driving physician discontent. His work has led to him to deeply examine the current healthcare environment and the factors driving extreme levels of disconnection and isolation leading to a diminished sense of purpose among countless physicians. The result of which is a growing dilemma of physician burnout and the dangerous pandemic of physician suicide.

**Gregory Schears, MD, Professor of
Anesthesiology, Mayo Clinic**

Dr. Gregory J. Schears, MD, is a Professor of Anesthesiology at the Mayo Clinic in Rochester, MN. He is a pediatric intensivist and anesthesiologist by training and cares for both adult and pediatric

patients in his ICU and OR practice. He has a long-standing interest in reducing patient complications, improving our approach to vascular access and improving patient safety. Dr. Schears completed his pediatric residency at St. Louis Children's Hospital, his anesthesia residency, pediatric anesthesia fellowship and pediatric critical care fellowship at John's Hopkins hospital, and worked at the Children's Hospital of Philadelphia for 5 years until he was recruited to the Mayo Clinic in 2001 to head the ECMO service. There he serves as Consultant of Department of Anesthesiology at Mayo Clinic, Rochester, MN and is the physician liaison to the nurse led PICC team, former Medical Director of the ECMO Service for 16 years. He is very active with medical device development to help reduce complications and has given hundreds of presentations locally, regionally, nationally and internationally.

Faculty continues on next page

Meeting Faculty

continued

Yu Shi, MD, MPH, Consultant, Mayo Clinic

Dr. Yu Shi, MD, MPH, received his MD from Peking Union Medical College in 2007 and an MPH from Johns Hopkins in 2008. He completed his anesthesia residency at the Medical College of Wisconsin in 2015 and pediatric anesthesia fellowship at the

Children's Hospital of Philadelphia in 2016. Since then, he has been an Assistant Professor of Anesthesiology at Mayo Clinic. Dr. Shi has a strong research interest in the developmental outcomes of children undergoing anesthesia. He received a mentored research training grant by the FAER to develop the tools and skills that are required to rigorously evaluate important predictors and moderators of child well-being in the perioperative period. He has been actively publishing in the neurodevelopmental outcomes in children.

Michael Todd, MD, Professor and Vice Chair, Department of Anesthesiology, University of Minnesota School of Medicine

Dr. Michael Todd, MD, is a Professor and Vice Chair for Research at the University of Minnesota. Formerly Professor and Chair, Dept of Anesthesiology University of Iowa, and

Professor and Vice Chair at the University of Iowa before that. He is also Editor and then Editor-in-Chief of Anesthesiology, the Journal of the ASA, as well as principal investigator of the NIH-funded, international IHAST clinical trial.

Brian Tolly, MD, Anesthesiologist, Minneapolis VA Healthcare System

Dr. Brian Tolly, MD, is a cardiac anesthesiologist who works at the Minneapolis VAHCS and University of Minnesota. He has a particular interest in posttraumatic stress disorder in veterans undergoing surgery.

Tasha Welch, MD, Mayo Clinic

Dr. Tasha Welch, MD, attended Gustavus Adolphus College and earned her degrees in biochemistry and biology. She attended Mayo Medical School in Rochester, MN, and then completed her internship at Gundersen Lutheran in La Crosse, WI. She returned to Rochester to complete her

anesthesiology residency at Mayo Clinic. Following residency Dr. Welch completed the neuroanesthesiology fellowship at Mayo Clinic Rochester. Currently Dr. Welch is an assistant professor of anesthesiology and serves as the Medical Director for the Peri Anesthesia Unit of the Radiology practice at Mayo Clinic Rochester. She has research and clinical interest in anesthesia for functional neurosurgery and anesthesia for procedures performed in the radiology suites.

Pacira BioSciences, Inc. (Nasdaq: PCRX) is the industry leader in its commitment to non-opioid pain management and regenerative health solutions to improve patients' journeys along the neural pain pathway. The company's long-acting local analgesic, EXPAREL® (bupivacaine liposome injectable suspension) was commercially launched in the United States in April 2012. EXPAREL utilizes DepoFoam®, a unique and proprietary product delivery technology that encapsulates drugs without altering their molecular structure, and releases them over a desired period of time. In April 2019, Pacira acquired the iovera° system, a handheld cryoanalgesia device used to deliver precise, controlled doses of cold temperature only to targeted nerves. To learn more about Pacira, including the corporate mission to reduce overreliance on opioids, visit www.pacira.com
